

**Day 1:**

- \* Intro, Variables, Data Types.

**Day 2:**

- \* Manipulating String/Numbers & Math Operators

**Day 3:**

- \* Operators, If/Else, For loops.

**Day 4:**

- \* Functions, Recursions, Closures.

**Day 5:**

- \* Arrays and it's methods.

**Day 6:**

- \* Objects & Browser Storages..

**Day 7:**

- \* DOM Manipulation & Event Handling.

**Day 8:**

- \* Date/Time, Math functions.

**Day 9:**

- \* Applying learned concepts in Projects.

**Day 10:**

- \* Asynchronous JavaScript, Callbacks, Promises, Async/Await.

**Day 11:**

- \* HTTP requests.

**Day 12:**

- \* Classes & Object-Oriented Programming (OOP).

**Day 13:**

- \* Some Advanced JS Concepts.

**Day 14:**

- \* Applying learned concepts in Projects.

**Day 15:**

- \* Performance and Optimization.
